

GROUP 24 MEETING WEEK 10

Date: 10/5/2023

Attendance: Belal, Raull, Disha, Brian, Damon

Progress for the week: More progress has been made this week. Raull and Disha have completed both of their parts of the report and we are now finalizing all the information so it can be formatted and presented to our client FlyDreamAir. Some small adjustments were made on the WBS dictionary, but other than that the report should be completed by next week.

Overall Review: We are very pleased with how progress has come along over the course of these 7 weeks. The team has agreed to keep the creation of the report as a top priority so we have some slack in order to make any last minute adjustments before the deadline.
